

BLD PROOF 2000

DESCRIPTION

BLD PROOF 2000 a single pack highly elastic liquid waterproofing styrene acrylic emulsion designed for liquid roofing coating and wet areas. It is a super waterproofing which does not age or harden, having good thermal tolerance and UV resistance.

USES

- Waterproofing roofs, plaza and car park decks.
- It can be used as protective UV resistance sleeve coat for costly resin or other vulnerable when exposed waterproofing system.
- Protective membrane for PU installation.
- For repair of old or existing damaged waterproofing system.
- For use as waterproofing for wet areas (bathrooms and kitchens)
- For damp proof membrane in sandwich construction as a general purpose water proofer for walls, floors and other constructions.
- It is also an effective adhesive and bonding agent for insulation boards, cork panels, etc.
- It is practically suitable where some movements of structures is expected, exhibits much better permeability and elasticity characteristics, than similar material without latex.

ADVANTAGES

- Completely waterproof
- Excellent elastic regain
- Flexible at low temperatures
- Superb adhesion to all sound roofing surfaces
- Outstanding exterior durability UV light, infrared and ozone resistance
- High resistance to dirt pick up hence long term reflectivity and lower air
- Low toxicity and odor.
- Low moisture vapor transmission
- Excellent film integrity
- Easy application
- Easy cleaning
- Pedestrian properties of the roofing membrane
